

Clean Air Zone, Zero Emission Zone & Low Emission Zone Guide for LCVs

If your van operates in the following areas and is not at least a **Euro 6 Diesel** or **Euro 4 Petrol** van, you could be charged to enter these zones.

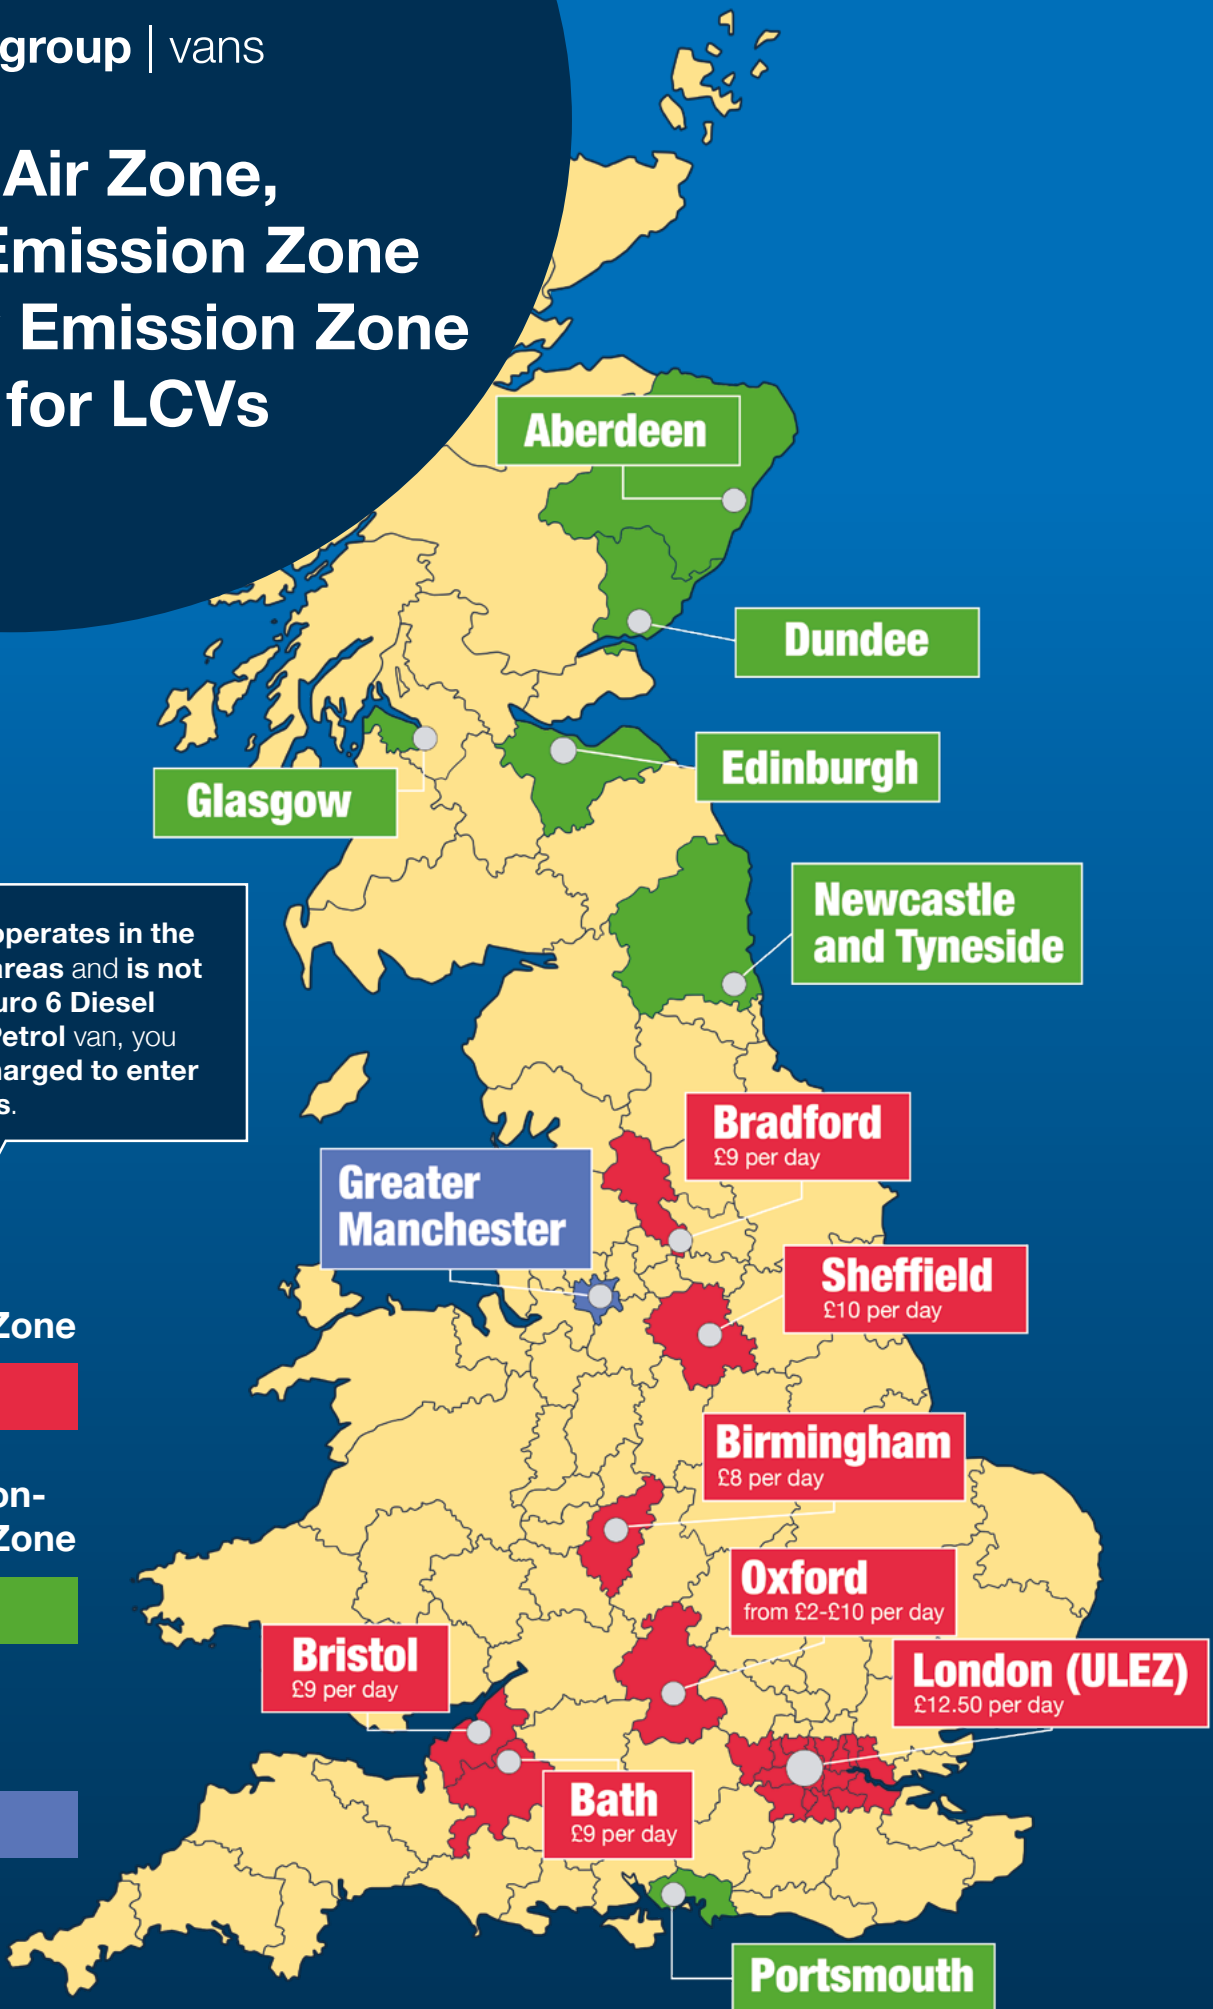

Current Charging Zone

Current Non-Charging Zone

Upcoming Zones

How can **Dawson**group | vans support your business?

Despite the many benefits low emission zones provide, the introduction of these zones poses a fresh set of challenges for commercial vehicle operators. With rising operational costs already causing many problems for LCV fleets, having to also pay CAZ, LEZ and ULEZ charges consistently could be the final straw for some businesses. Therefore, many LCV operators will now be under immense pressure to upgrade to cleaner, compliant vehicles, in the most cost-effective and efficient way.

Dawsongroup | vans have a wide range of cost-effective, tailored rental solutions to allow your fleet to become CAZ, LEZ, ZEZ and ULEZ compliant.

We have an extensive selection of high quality, compliant vehicles, ready for you to add your fleet on a rental agreement which meets your specific needs. Our team of experts will work alongside you to create the most cost-effective and efficient solution for your current requirements, whilst also giving you full flexibility and scalability to manage any future changes.

If you would like to future-proof your fleet, without the risk of owning a depreciating asset, please get in touch today!
